

Electricity Statistics for Reliability and Quality of Supply

Years: 2017 - 2019

INTRODUCTION

This report comprises of Electricity Statistics related to reliability and quality of electricity supply to the customers. Key indicators picked for this purpose are followings:

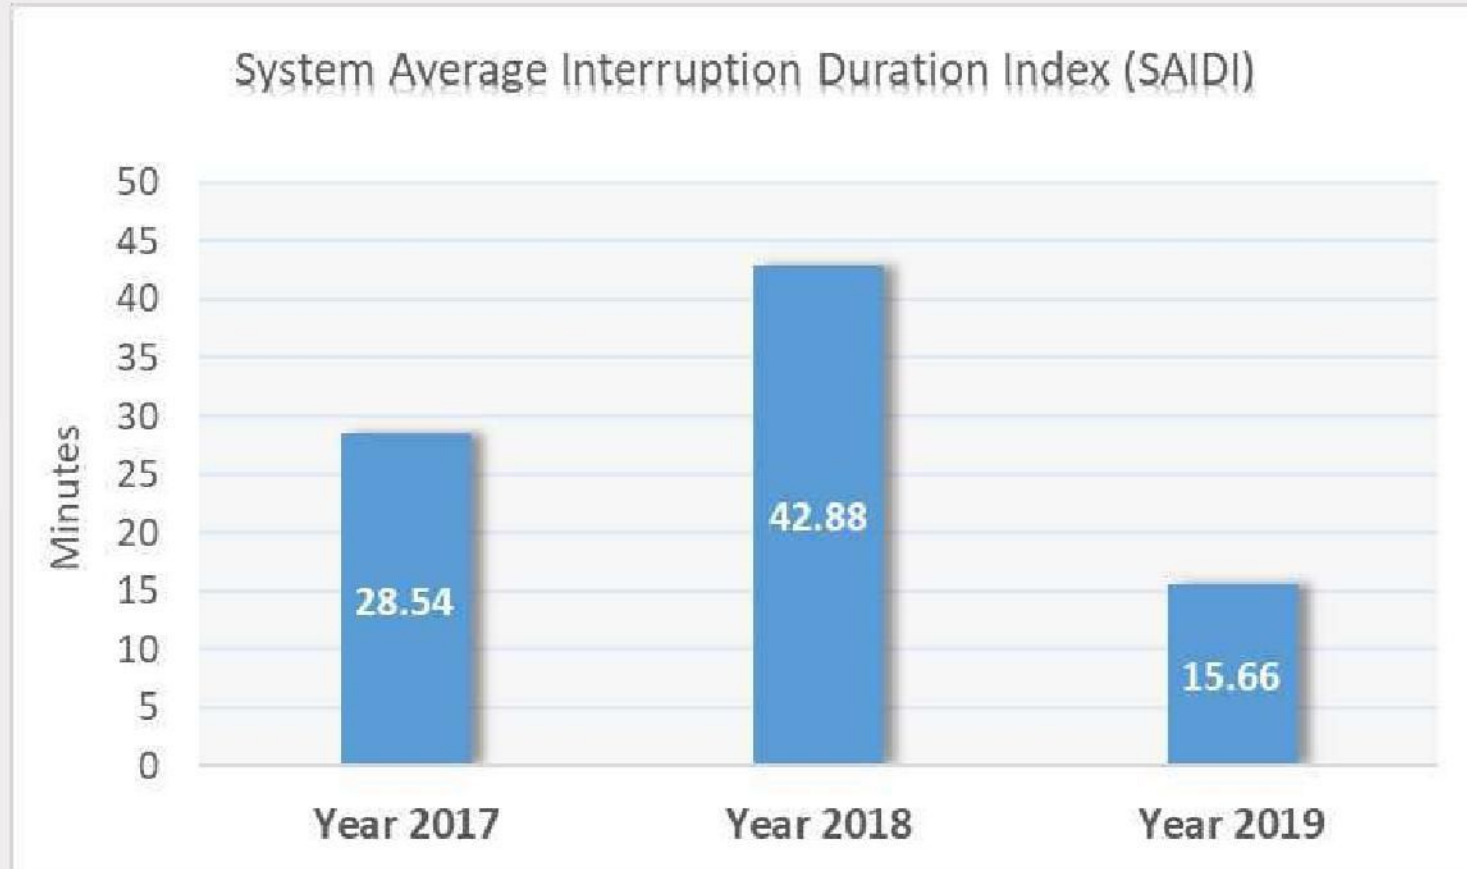

- System Average Interruption Duration Index (SAIDI)
- System Average Interruption Frequency Index (SAIFI)
- Transmission System Minutes Lost (SML)

The details include the actual data for the above indicators for the years 2017, 2018 and 2019.

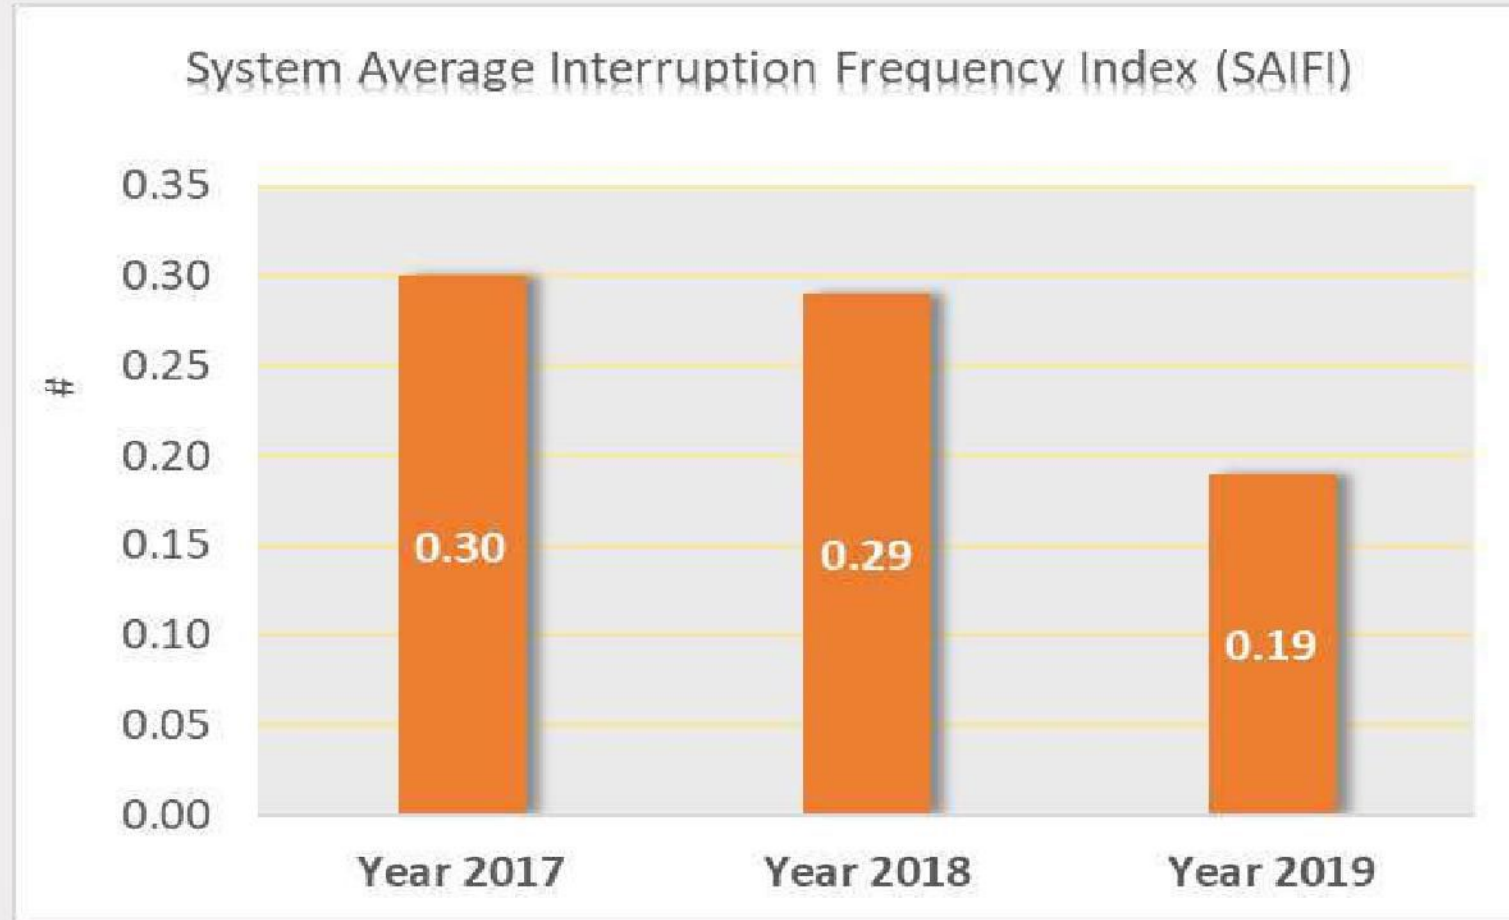

01

System Average Interruption Duration Index (SAIDI)

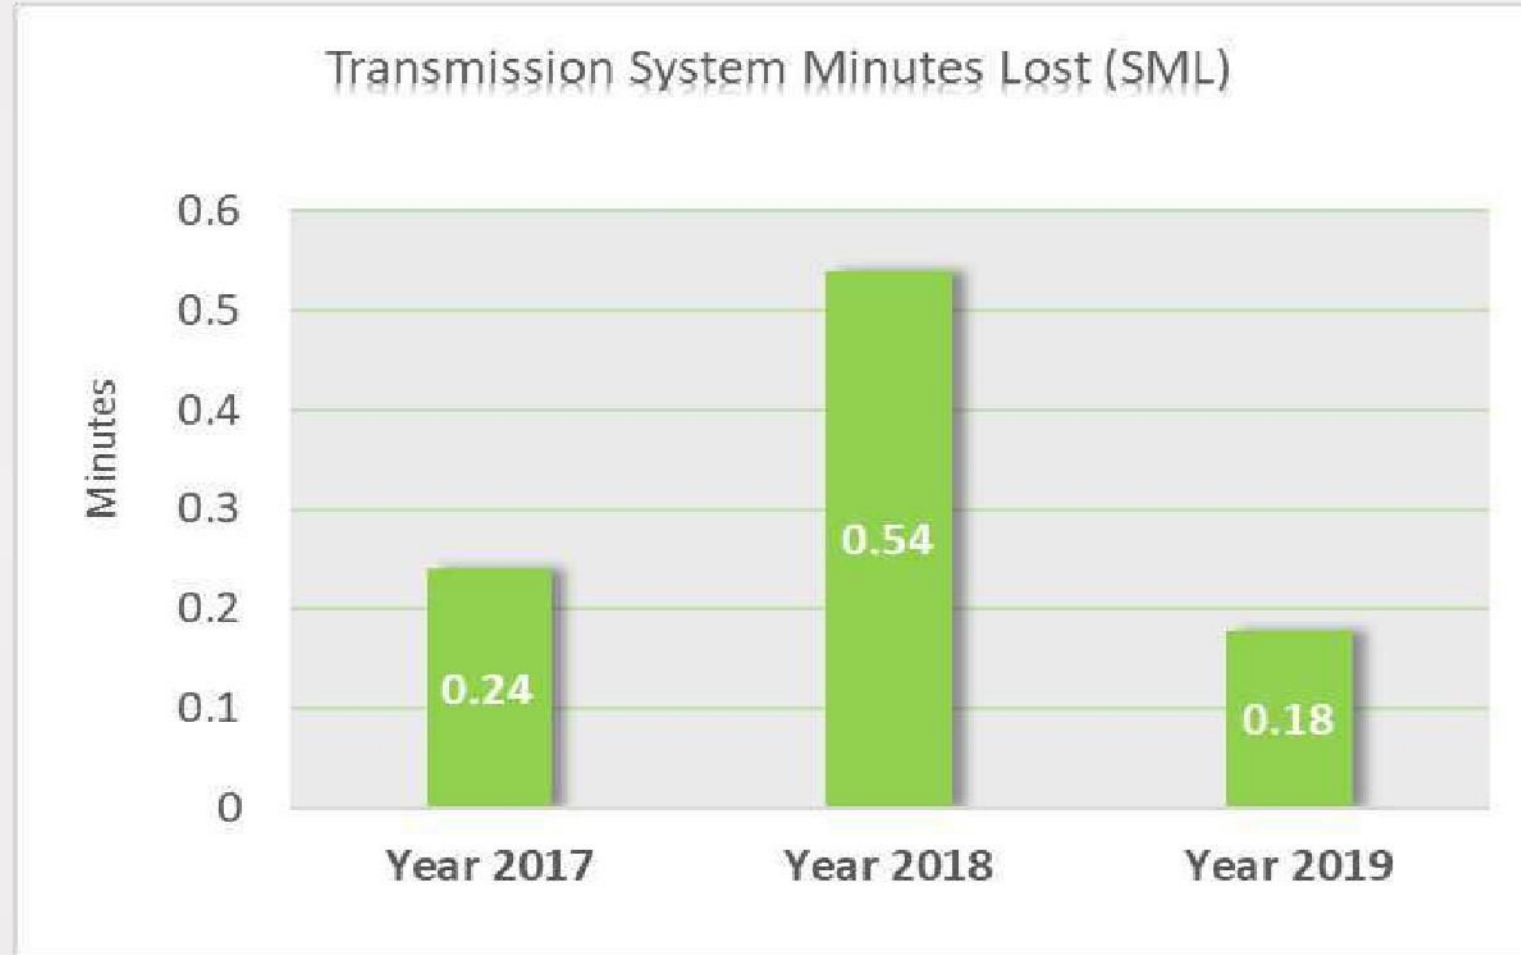

| | Year 2017 | Year 2018 | Year 2019 |
|-------|-----------|-----------|-----------|
| SAIDI | 28.54 | 42.88 | 15.66 |

System Average Interruption Frequency Index (SAIFI)

| | Year 2017 | Year 2018 | Year 2019 |
|-------|-----------|-----------|-----------|
| SAIFI | 0.30 | 0.29 | 0.19 |

Transmission System Minutes Lost (SML)

| | Year 2017 | Year 2018 | Year 2019 |
|-----|-----------|-----------|-----------|
| SML | 0.24 | 0.54 | 0.18 |
